Nomad Yachts

NOMAD 95 SUV

Built using advanced composite material such as Carbon Fiber and Kevlar, the NOMAD 95 SUV (Sports Utility Vessel) offers supreme navigational technology that is commonly found on much larger superyachts.

Unique features include an enclosed upper sky lounge that can be fitted out as an airy upper lounge, or as an additional cabin, while the master suite is unusually situated on the main deck above the hull. Surrounded on three sides by spectacular curved windows, the cabin has an uninterrupted 180-degree view of the ocean. Smart interior layouts can accommodate up to six state rooms, with additional extensive crew quarters.

The spacious cockpit is equipped with a dining area for 8 people and the convenient side walkways provide access to the bow of the boat where the seating area is located.

The panoramic glazed main saloon is a lounge with a formal dining area. A corridor leading from the dining area gives access to the full-beam owner's stateroom.

A virtual 360° tour is available: <https://vrcloud.com/?pv=1555951576>
